

PRINTEC® 333/334 UV PRODUCER

The Printec® 333/334 UV Producer was designed specifically for UV applications. The surface compound incorporates EPDM, making the blanket extremely resistant to swelling and embossing from UV links and blankets washes.

Printec® 333/334 UV Producer has been modified recently to incorporate a new technology in low stretch, high tensile strength fabric materials, along with an enhanced compressible layer, resulting in a blanket that will print more impression than competitive products.

Features

- Washes easily
- High Smash resistance assures fewer blanket changes
- Excellent Ink Transfer
- Minimal swelling
- High tensile strength backing prevents stretching
- Longer life
- Chemical resistant

PHYSICAL CHARACTERISTICS

- Color: Orange
- Thickness: 333 - 1.70mm
334 - 1.96mm
- Roughness: 1.0 µRA
- Hardness: 333 - 79 Shore A
334 - 78 Shore A
- Elongation: 2% MAX
- Compressibility: 333 - 115 +/- 25 N/cm²
334 - 125 +/- 25 N/cm²
- Surface: Buffed
